ABIGAIL

Inclusive Wheelchair-Accessible Carousel with a larger seat and supportive safety features.

Sunken Trampoline – A 2m trampoline built into the ground for easier access, providing a safe and fun way for children with mobility challenges to enjoy jumping.

Sensory Panels – Interactive walls or panels with various textures, colours and sounds that children can touch, listen to, and explore.

Our Trim Trails range consist of a wide range of fun, exciting and challenging structures that encourage children and young people to balance, climb, problem solve and use upper body strength to complete them.

With a variety of different challenges to choose from, our trim trails offer a simplified, intermediate or an advanced version.
