Members of the public were invited to speak:

- A resident raised concerns about a lack of visibility about the usage of funds, handed over to the Village Hall Management Committee, and arising from the village fete, and how those funds improve the offering to the Longwick Community and it's use of the hall. Cllr Smith noted that the Parish Council is seeking to engage constructively with the Village Hall Committee and would hope to see progress in due course. Cllr Smith encouraged residents to raise any concerns directly with the Village Hall Committee, noting that a petition from residents could be an option. Cllr Hall confirmed support to the Parish Council if required.
- A resident who acts as the guardian for the defibrillators asked for clarification on Agenda Item 38 and whether he would still be required to carry out the regular checks. The Clerk explained that the guardian role would remain the same, subject to his willingness to continue, and he indicated that he was happy to do so. In closing, the Clerk stated she would catch up with him offline.
- A resident asked whether any future changes to speed limits were being considered, noting that none were included in the proposals under Agenda Item 36. Cllr Smith explained that the Council wished to see progress on the current proposals and that, given the restrictions and cost implications associated with altering speed limits, pursuing additional changes at this stage would slow the process down.
A resident thanked the Council for their work on the All-Weather Surfacing. It was noted that both positive and negative feedback had been received and discussed.

ILMER GREEN SOAKAWAY

Background

A drainage concern was recently reported on Ilmer Green. Thames Water attended the site and carried out a full investigation. Their written report confirms that the chamber located on the Green is a historic catchpit/soakaway and not a Thames Water asset. They advised that the soakaway appears to be long-standing and has become heavily silted due to lack of historic maintenance, resulting in reduced performance.

Ownership and Responsibility

Ilmer Green was registered to Longwick-cum-Ilmer Parish Council in 1973 under section 8(3) of the Commons Registration Act 1965. This followed a Commons Commissioner decision that no private owner could be identified. The registration was an administrative allocation of ownership rather than a negotiated transfer, and no asset list, survey, or condition information was provided at the time.

Thames Water have confirmed that the chamber is not part of the public sewer network. Buckinghamshire Council Highways have responsibility only for drainage assets that serve the highway; the soakaway is located entirely on Parish-owned land and is not connected to the highway drainage system. Maintenance therefore rests with the landowner.
